

怎樣才能追蹤遺失了的狗隻 / 貓兒？

How can I trace my lost dog / cat?

- 給狗隻 / 貓兒一個掛有身份證明牌的頸圈。在牌上寫上狗隻 / 貓兒的名稱、你的聯絡電話號碼以作辨識。

Fit your dog / cat with a collar and place an identification tag on the collar. Include your dog's / cat's name and your contact number on the tag for identification.

- 狗隻滿 5 個月大後替其植入晶片及領牌。如果遺失狗隻被漁護署拾獲，漁護署可以透過晶片和牌照記錄迅速取得狗主資料並聯絡狗主。

Microchip and license your dog by the time it has reached 5 months of age. If your dog gets lost and is eventually found by Agriculture, Fisheries and Conservation Department (AFCD), it can be quickly traced to you through AFCD's microchip and licence records.

- 若你的聯絡資料有任何更新，請立即通知漁護署。
Keep your contact information up to date by notifying AFCD of any changes.
